**BLACK R**  
Solid content % 45±2

A highly concentrated solvent soluble metal complex dye in liquid form. In the new NOVALACK WS series a particular dissolving system has been used which permits it to be diluted in water. This range is light resistant and has high transparency together with excellent colour intensity and brightness.

The fields of application are:

- WOOD Coatings
- LEATHER
- INDUSTRIAL Coatings
- PLASTIC Coatings
- GLASS Coatings
- SPECIAL Sectors

The technical data above stated are presented in good faith and to the best of our knowledge. They should serve only as approximate guidance and therefore customers are kindly advised to test and ascertain the performance of our products in the operating conditions existing at their end, to satisfy themselves about their suitability in a given industrial application.
